This action is in response to the application filed 7/23/03.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Henry Daly on 7/14/04.

The application has been amended as follows:

Cancel claim 6.

Reasons for Allowance

2. Claims 1-5 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claim 1 limits the formation of a metal-insulator-metal capacitor to forming a trench through a dielectric film to expose a first metal film, forming an insulation film and a second metal film on the trench surface, etching the second metal layer and insulation

film to form the upper electrode and patterning the dielectric layer and first metal film to form the lower electrode. This limitation, in combination with the other limitations of claim 1 is not taught or suggested by the prior art of record. Lee (US006479850B2 and US006333224) teaches forming an insulation layer and a metal layer in a trench formed in a dielectric layer and exposing the metal layer, but does not teach or suggest patterning the dielectric and lower metal layer to form a lower electrode. Lee (US006569746B2 and US006597032B1) forms the lower layers of metal and insulative material rather than dielectric material and also does not teach or suggest patterning the dielectric and lower metal layer to form a lower electrode.

Claims 2-5 are allowed as being properly dependent upon allowed claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
